25. (continued) COMMENTS/HISTORICAL INFORMATION:

This is a 2-story, 4-bay domestic building in the Craftsman style built in the period 1920-1929. The building is square in plan. The structural system is frame. The foundation is poured concrete. Exterior walls are replacement stucco. The building has a bellcast hip roof clad in replacement asphalt shingles with box cornice and dentil moulding. There are two straddle ridge, stuccoed chimneys. Windows are original wood, 12/1 double-hung sashes. The windows on the ground floor facade are flanked by divided sidelights. The upper story features twin 8 over 1 double hungs. There is a single-story, single-bay open porch characterized by a hip roof clad in asphalt shingles with square stuccoed posts. The eastern porch has been removed. Both eastern and... western entry doors appear to be modern replacements.
